WORKSHOP

Duration: 7 days

24th Workshop on Methods in Clinical Cancer Research

European Organisation for Research and Treatment of Cancer-EORTC

Description:

The annual Methods in Clinical Cancer Research Workshop (MCCR) is a week-long course designed to educate and train early-career investigators in the best practices of clinical trial design and provide access to experienced clinical investigators from different institutions and countries with expertise across all areas of clinical research.

The Workshop is organised by the European Organisation of Research and Treatment of Cancer (EORTC), European Society for Medical Oncology (ESMO) and American Association for Cancer Research (AACR) and has provided training to over 1900 investigators from all over the world since its' inception in 1999.

[2023 - 2023]

Duration: 5 days

EORTC course on Clinical Trial Statistics for Non-Statisticians, Brussels, 13-16 June 2023.
